I am a professional Frontend Developer with 3 years of experience and a Bachelor's degree in Computer Engineering. I specialize in developing Web and Mobile applications using React and React Native frameworks. Additionally, I have experience in mobile app development using Java in Android Studio. I am proficient in JavaScript, HTML, and CSS. I am a results-oriented, dependable team player dedicated to streamlining processes and resolving issues.

I have refrained from including my current projects on my CV; however, I would be delighted to discuss them during an interview.

Work experience

Front-end Developer 2022 - Present
Plife Software & Technology AB, Malmö

I am currently employed at Plife Software & Technology AB, where I have honed my ability to successfully handle a wide range of tasks by working on various projects. I particularly focus on mobile projects, showcasing my skills in this domain. Additionally, I have gained significant experience in web and desktop projects, further enriching my technical skills.

React Native Developer 2021 - 2022
NewSplitter AB, Malmö

While working as a Frontend Developer at this company, I was involved in developing a startup project using React Native. Additionally, I gained experience in backend technologies such as Google Firebase and AWS. This experience provided me with valuable insights into cross-platform mobile app development and the integration of cloud services to support our project.

Front-end Developer 2020
KolayBi, Ankara

Remote Part-Time React.js Developer; Worked on a Customer Relationship Management web app.

Intern; End User Support. 2019
KALE INDUSTRY HOLDING, Istanbul

Education and Qualifications

Computer Engineering 2015 - 2019
Konya Technical University, Turkey
